About Me

I am a recent graduate of the Full Stack Coding Boot-camp at UNC Charlotte. Throughout the bootcamp I had to maintain a full time job working nights to support my family and cared for my 2 year old daughter in the mornings while her mother was at work. Without any days off and sacrificing every second of my free time I made it through and developed a passion for coding.

I've spent the last two years working as a perishable order selector for Harris Teeter. It's a fast paced environment to say the least and communication is crucial. This has taught me to be efficient and find creative ways to solve problems. Which in turn has made me one to the top performers in my position.

As a natural problem solver and self-learner, I'd make a great asset and would immediately bring value to any team.

Projects

Giftastic - https://cwood89.github.io/GifTastic/
- Allows users to search for gifs. Uses Jquery to perform ajax calls to the giphy api.
- Sole Contributor
- Made with JQuery.
- See Code: **https://github.com/cwood89/GifTastic**

Real Solution - https://powerful-tor-47566.herokuapp.com/
- Real estate investment app made to find the best valued properties based on desired investment yield.
- My responsibilities included: Server side authentication, user database functionality, login functionality including password encryption and page routing and redirects.
- Made with React, React-Router, Axios, Express, Express-Session, Bcrypt, and Sequelize.
- See Code: **https://github.com/cwood89/RealSolution**

Head Lights - https://head-lights.herokuapp.com/
- Web scraping app that allows users to read and save sports articles.
- Sole Contributor
- Made with Handlebars, Express, Axios, Cherio, and Mongoose.
- See Code: **https://github.com/cwood89/headLights**

React Book Search - https://react-book-club-cw.herokuapp.com/
- Book search app which uses the google books API to search for and save books.
- Sole Contributor
- Made with the MERN stack: MongoDb, Express, React, Node.
- See Code: **https://github.com/cwood89/react-book-search**
